

STATE ELECTRIC SUPPLY COMPANY

PLUG INTO A REWARDING CAREER IN ELECTRICAL DISTRIBUTION

WHAT IS ELECTRICAL DISTRIBUTION?

Electrical distribution is a cutting-edge industry that buys, sells, and delivers thousands of products from the companies that make them (manufacturers) to the people who use them (contractors, factory maintenance, do-it-yourself, and service professionals). Although the industry deals with products, it is also very people-oriented.

WHAT CAN ELECTRICAL DISTRIBUTION OFFER ME?

Beyond offering a competitive salary and benefits package, electrical distribution provides you with the opportunity to put your creativity to use by utilizing problem-solving techniques and sharpening your teamwork skills. The industry also offers you well-organized training programs to improve your skills and product knowledge. With continued industry growth, your career in electrical distribution is sure to soar!

“If you put together a good team, you’re unbeatable. The people on our team are simply the best.”

State Electric Supply Company was founded in 1952 by Art Weisberg in Huntington, WV. Art built his company around the idea that providing the customer with just a product was not enough. “Beyond quality products and competitive prices, the thing that will separate our company from others is service. We believe making an effort to provide customers with what they need, when they need it, will keep them happy and coming back.” Today, State Electric is 40 locations strong and spanning six states. State Electric continues

to focus on growth from geographical and technological standpoints and believes in developing relationships with its manufacturers and customers to provide the most complete package of service available in the electrical industry to support the company slogan, “Customer Focused, Quality Driven.”

State Electric Supply Company locations are throughout West Virginia, Kentucky, Illinois, Ohio, Virginia and North Carolina. For more information visit stateelectric.com
